Product Overview

Automatic Scourer Production

This automatic mesh scourer making machine is engineered for the efficient production of high-quality stainless steel or galvanized iron scrubbers. Featuring a robust metal frame and an integrated overhead wire feeding system, the machine ensures consistent material supply and durable operation. Designed for industrial environments, it includes precise control panels for parameter adjustments and integrated collection chutes for streamlined workflow.

Technical Specifications

Voltage	220V/380V
Power Rating	1.5 KW

Performance

Production Capacity

24 KG/8Hour

Daily Output

Design & Build

Model	AR-1HEADS
Mobility Features	Mounted on wheels, Easy placement
