

Automatic Sealing Shrink Wrapping Machine

This automatic sealing shrink wrapping machine is designed for high-speed packaging applications. It efficiently seals and shrinks a variety of products, providing a secure and professional finish.

Overview

High-Efficiency Shrink Wrapping Solution

This automatic sealing and shrink-wrapping system is designed for high-speed, professional packaging across diverse industries including medicine, food, cosmetics, and electronics. The system combines a precise L-sealing unit with a high-capacity shrink oven, ensuring secure and aesthetically pleasing results for both single and group products. Built with durable stainless steel and featuring advanced PLC controls, this machine offers reliable performance, easy operation, and diagnostic capabilities for demanding production environments.

Applications

Suitable Industries

Medicine, Food & Beverage, Stationery, Printing, Cosmetics, Electronics, Toys, Auto Parts

BS-400LB Sealing Unit

Sealing Unit Specifications

Feature	Specification
Sealing Type	L-sealing via L-bar
L-bar Size	570 x 480 mm
Max Sealing Height	125 mm
Film Compatibility	12-80 micron
PLC System	SIEMENS CPU
Packing Capacity	35 packs/min
Rated Power Consumption	1.25 kW

BMD-450B Shrink Oven

Oven Dimensions

1200 mm

Length

450 mm

Width

220 mm

Height

Max Power Consumption

7 kW

Conveyor Speed

40 m/min

General Specifications

Power Supply

380V / 50-60Hz / 3-phase

Construction Material

Stainless Steel
