

Automatic Sensor Trash Can

This sensor-operated trash can allows for hands-free operation. It features a stainless steel construction and a removable inner bucket for easy cleaning.

Product Overview

Smart Hands-Free Waste Management

This automatic sensor trash can offers a modern and hygienic solution for waste disposal in offices and homes. Constructed from durable stainless steel, it features a motion-sensitive lid that opens automatically for touchless convenience. The compact, rectangular design ensures it fits seamlessly into professional and residential environments, while the removable inner bucket simplifies maintenance.
