

Automatic Shampoo Pouch Filling and Sealing Machine

This automatic shampoo packaging machine is designed for efficiently filling and sealing shampoo products into pouches. Its advanced control systems ensure accurate dosing and consistent sealing.

Overview

High-Efficiency Liquid Packaging

This automatic liquid packaging machine is a versatile solution designed for the precise filling and sealing of various liquid products, including shampoo, sauce, oil, grease, and cosmetics. Engineered for high-volume production lines, it features robust stainless steel construction that ensures durability and hygiene standards. The system offers fast, accurate, and economical operation, making it an ideal choice for businesses looking to optimize their packaging workflow with minimal product wastage.

Technical Specifications

Packaging Capacity

60 bags/min

Max Speed

Model Type	DXDY60B
Measuring Range	50 mm
Power Supply	380V three-phase four-wire system
Power Consumption	1620 W
Net Weight	170 kg

Dimensions

Machine Dimensions

Dimension	Value (mm)
Width	650
Depth	750
Height	1588

Compatible Pouch Dimensions	Length 60-180mm, Width 50-120mm
-----------------------------	---------------------------------

Applications

Suitable Products	Shampoo, Sauce, Oil, Grease, Cosmetics
