

Automatic Shutter Exhaust Fan

This exhaust fan is designed for efficient ventilation. Its automatic shutter opens during operation and closes when off, preventing backdrafts and ensuring energy efficiency.

Overview

Efficient Ventilation Solution

This automatic shutter exhaust fan is engineered for effective air circulation in residential and commercial spaces like bathrooms and kitchens. It features an intelligent shutter mechanism that automatically opens during operation and closes when powered down, effectively preventing backdrafts. Built with durable materials, this unit is designed for long-term reliability and easy maintenance, making it a dependable choice for improving indoor air quality.

Technical Specifications

Suitable Applications

- Bathrooms
- Kitchens
- General Ventilation

Shutter Operation	Automatic (opens during operation, closes when off)
Key Benefits	Prevents Backdraft, Energy Efficient, Durable Construction, Easy Installation
