

Automatic Shutter Exhaust Fan

This square exhaust fan is equipped with automatic shutters. Its metal frame houses multiple blades for efficient air circulation, ideal for wall or window mounting.

Overview

High-Efficiency Automatic Ventilation

This professional-grade electrical exhaust fan is engineered for optimal air circulation in both residential and commercial environments. Featuring a robust metal frame and an intelligent automatic shutter system, the louvers open seamlessly during operation and close tightly when powered off to prevent backdrafts. Its durable design ensures consistent performance for wall or window mounting applications.

Key Features

Key Features	Automatic Shutters, Backdraft Prevention, Wall Mountable, Window Mountable, Metal Construction
--------------	--

Performance

Design Type	Square-shaped electrical exhaust fan
Shutter Mechanism	Horizontally oriented louvers
