

Automatic Swimming Pool Floor Cleaner

This automatic swimming pool floor cleaner is designed for efficient and thorough cleaning of pool surfaces. It features a robust motor for powerful suction, a filtration system for removing debris, and a navigation system for comprehensive pool coverage.

Product Overview

Professional Automated Pool Maintenance

This automatic swimming pool floor cleaner is engineered to provide efficient and thorough cleaning for diverse aquatic environments. Featuring a high-performance motor and an integrated advanced filtration system, it effectively removes debris to maintain pristine water clarity. Its intelligent navigation system ensures comprehensive pool coverage, making it an ideal maintenance solution for both residential and commercial swimming pool operators.
