

Automatic Tire Changer with LCD Screen

This automatic tire changer is designed for efficient and precise tire mounting and demounting. It features an automatic tyre lifting device and an integrated LCD screen for operational information and control.

Product Overview

High-Efficiency Tire Servicing

The SM-CB60 is a professional-grade automatic tire changer designed to optimize speed and precision in tire maintenance. Equipped with advanced features such as an automatic tire lifting device and a user-friendly LCD interface, this machine minimizes manual labor and reduces the risk of tire damage. With its robust construction and high-efficiency bead breaker system, it is an ideal solution for modern high-volume automotive service centers.

Technical Specifications

Power Requirements

- 110V
- 220V
- 380V

Rim Diameter Capacity	10"-30"
Max Wheel Diameter	1300 mm
Wheel Width Capacity	3"-13"

Performance Metrics

Bead Breaker Force

1400 kg

Bead Breaker Force

Working Pressure	9 bar
------------------	-------

Logistics and Shipping

Packaging Details

Metric	Value
Net Weight	584 kg
Gross Weight	632 kg
Volume	3.9 CBM
Dimensions	1680*1150*2000 mm

Operational Features

Key Advantages

LCD Display, Automatic Tire Lifting, Blast Inflation, Auto-locating Mount Head, Multi-point Synchronous Control
