

Automatic Tube Filling and Sealing Machine

This automatic machine fills and seals tubes with viscous products. It features stainless steel construction, a rotary filling system, and adjustable filling volume for hygienic and accurate packaging.

Overview

High-Efficiency Tube Packaging Solution

This automatic tube filling and sealing machine is engineered for the precise packaging of viscous products into tubes. Featuring a robust stainless steel construction and a reliable rotary filling system, it is designed to meet high standards of hygiene and operational accuracy. The system is highly versatile, making it an ideal choice for industries ranging from cosmetics and pharmaceuticals to food processing.

Technical Specifications

Adjustable Parameters

- Filling volume
- Filling speed
- Sealing temperature
- Sealing pressure

Construction Material	Stainless Steel
Filling System	Rotary

Safety & Operation

Safety Features	Emergency Stop, Protective Enclosures
-----------------	---------------------------------------

Applications

Suitable Industries

Cosmetics • Pharmaceuticals • Food
