

Automatic Wire Stripper

This automatic wire stripper features adjustable stripping force to accommodate various wires and cables. Precision blades ensure clean and accurate cuts, while a comfortable grip enhances ease of use.

Product Overview

Professional Automatic Wire Stripper

This high-performance automatic wire stripper is designed for precision and efficiency in electrical and electronic applications. Constructed with a durable metal frame and a comfort-grip handle, it provides long-lasting reliability and user ease. It supports a wide range of wire sizes and features adjustable stripping length to suit various technical requirements.

Technical Specifications

Stripping Capacity	6 mm
Minimum Wire Capacity	0.2 mm
Maximum Strip Length	25 mm

Build & Design

Frame Material	Metal
Handle Features	Comfort Grip, Ergonomic

Features

Core Capabilities

- Automatic wire stripping mechanism
- Integrated cable cutting function
- Adjustable stripping force
- Precision blades
