Product Overview

High-Efficiency Automotive Condenser

This automotive air conditioning condenser is engineered for superior heat transfer and reliable cooling performance. Featuring a durable aluminum construction with a parallel flow design, it maximizes surface area for efficient refrigerant cooling. Designed for precise integration, this unit ensures optimal air conditioning system operation and longevity for compatible vehicles.

Compatibility

Compatible Vehicle	Toyota Highlander Base L4 2.4L
Model Years	2001-2007

Technical Specifications

Core Size	709 x 438 x 16 mm
OEM Reference Number	8846048020
DPI Number	3053
Nissens Reference	88-75032

Logistics

Carton Dimensions	777 x 45 x 467 mm
