

Automobile Engine Fuel Injector

High-performance fuel injector designed for optimal fuel delivery and combustion efficiency in automobile engines. This injector ensures precise fuel atomization, contributing to reduced emissions and improved engine performance.

Product Overview

High-Performance Fuel Injection

This high-performance fuel injector is engineered for optimal fuel delivery and combustion efficiency in automobile engines. Designed to ensure precise fuel atomization, it contributes significantly to reduced emissions and improved overall engine performance. Built with durable materials and precision engineering, this component offers reliable operation and a long service life for various engine applications.

Technical Specifications

Emission Standard

EURO b

Part Identifiers

6700, 05K09648, MODEL 670

Application

Automobile Engine
