Product Overview

Automobile Heater Core

This high-performance heater core is designed for efficient heat transfer and reliable climate control within the vehicle cabin. Constructed with durable materials to resist corrosion, it features precision-engineered fins for maximum surface area and optimized airflow. Its compact, space-saving design ensures easy installation, making it an ideal replacement component for various automotive heating systems.

Technical Specifications

Core Dimensions

208 mm
Length

180.5 mm
Width

26 mm
Depth

Compatibility

Compatible Vehicle Models	Express, Savana, G Series Van
Model Years	1996-2006

Reference Numbers

Cross-Reference Numbers

Reference Type	Value
TS Number	6279055
OEM	8437
Nissens	8437
