

Automobile Wheel Immobilizer Lock

This wheel lock is designed to prevent unauthorized vehicle movement. It is constructed from durable materials to withstand tampering and harsh conditions.

Product Overview

Heavy-Duty Security Solution

This professional-grade wheel immobilizer is engineered to prevent unauthorized vehicle movement in high-security environments. Constructed from durable materials, it is designed to withstand tampering attempts and harsh outdoor conditions. The high-visibility color scheme serves as an effective deterrent, making it an ideal choice for parking lots and sensitive storage facilities.

Technical Specifications
