Product Overview

High-Performance AC Compressor Clutch

This automotive AC compressor clutch assembly is engineered for reliability and efficient cooling performance in heavy-duty applications. Designed for the 10PA15C compressor model, the unit features a robust 24V electromagnetic coil and a precise PV9 pulley configuration. This complete assembly includes the clutch hub, pulley, coil, and bearing, providing a comprehensive solution for air conditioning system maintenance and repair.

Technical Specifications

Operating Voltage	24 V
Pulley Configuration	PV9
Compatible Compressor Model	10PA15C

Components

Included Components

- Clutch Hub
- Pulley
- Electromagnetic Coil
- Bearing

Application

Application Type	Truck, Automotive
------------------	-------------------
