

# Automotive Air Brake Hose with Brass Fittings

This coiled air brake hose is designed for automotive brake systems. It includes brass end fittings with thread sizes such as 1/2, 16x1.5, 18x1.5, and 22x1.5.

## Product Overview

### High-Performance Automotive Air Brake Solutions

This collection of automotive air brake hoses and brass fittings is engineered for reliability in heavy-duty braking systems. The set includes durable, color-coded coiled air lines designed for flexibility and longevity under operational pressure. Complemented by precision-machined brass fittings, this assembly ensures secure, leak-free connections across various thread configurations.

## Technical Specifications

### Available Thread Sizes

- 1/2"
- 16 x 1.5
- 18 x 1.5
- 22 x 1.5

### Color Coding

Red • Blue • Yellow

### Hose Types

Coiled Air Hose, Automotive Brake Line
