Product Overview

High-Performance Automotive Condenser

This automotive air conditioning condenser is engineered for efficient heat transfer, ensuring optimal cooling capacity for your vehicle's climate control system. Featuring a robust parallel flow design, it utilizes optimized fin spacing and durable construction to withstand demanding operating conditions. Designed to meet or exceed OEM specifications, this unit provides a precise fit and reliable performance, making it an ideal choice for restoring A/C functionality.

Technical Specifications

Core Dimensions

690 mm

Length

358 mm
