Product Overview

High-Efficiency Laminated Evaporator

This automotive air conditioning laminated evaporator is engineered for superior heat exchange performance, ensuring optimal cooling efficiency within vehicle climate control systems. Designed with precision, it provides reliable thermal regulation and durability for demanding automotive environments. Its compact construction and high-quality build make it an ideal replacement component for maintaining cabin comfort.

Technical Specifications

Dimensions

90 mm

Width

342 mm

Length

177 mm

Height

Vehicle Compatibility

CAMARO

Compatible Part Numbers

52453621, 156664

Model Identifier

SKCZ021-022

Construction Type

Laminated
