

# Automotive Air Filter

This air filter removes dust, pollen, and other contaminants from air entering the engine. It features a pleated paper filter media encased in a durable plastic frame.

## Product Overview

### High-Efficiency Automotive Air Filter

This automotive air filter is engineered to provide superior engine protection by effectively capturing dust, pollen, and other airborne contaminants. Designed with pleated filter media and a durable frame, it ensures consistent airflow for optimal engine performance and efficiency. Regular replacement of this filter is essential to prevent engine damage and maintain vehicle longevity.

## Key Features

### Performance Benefits

- Provides 2X the engine protection
- Improves air flow
- Prevents dirt and dust from entering the engine

## Compatibility

### Vehicle Compatibility

Make	Model	Engine	Year
KIA	SORENTO	V6 3.5L 3497cc	2003
KIA	SORENTO	V6 3.8L 3800cc	2003
