

Automotive Air Filter

This air filter is designed to remove particulate matter from an engine's air intake. It consists of a pleated filter element within a wire mesh and a sealing end cap.

Product Overview

Engine Protection and Performance

This automotive air filter is engineered to provide superior engine protection, offering double the standard filtration capacity. By ensuring a consistent flow of clean air, it effectively prevents harmful dirt and dust particles from entering the engine intake system. This essential maintenance component helps maintain optimal engine performance and longevity.

Performance Features

Engine Protection

2X Protection

Primary Benefit

Improves air flow and prevents contaminants

Compatibility

Compatible Vehicles

Make	Model	Year Range
Dodge	Caliber	2011-2012
Jeep	Compass	2011-2014
Jeep	Patriot	2011-2014
