Product Overview

High-Performance Automotive Alternator

This automotive alternator is engineered to provide reliable and consistent power generation for vehicle electrical systems. Designed to meet demanding operational requirements, it efficiently converts mechanical energy into electrical power to charge the battery and support vehicle accessories. Its robust construction ensures durability and a long service life under varying load conditions.

Technical Specifications

Key Performance Metrics

28 V
Voltage

110 A
Current

Rated Voltage	28 V
Rated Current	110 A

Compatibility & Identification

OE Reference Number	0124655002
Lester Number	12389

Logistics & Ordering

Production Lead Time	30-45 days
Payment Terms	TT, LC
Packaging	Neutral packing or customized
