Product Overview

High-Performance Automotive Alternator

This automotive alternator is engineered to provide reliable electrical power generation, ensuring stable voltage output for vehicle systems under varying load conditions. Built with a robust cast aluminum housing, it offers excellent durability and heat dissipation for long-lasting operation. The unit features a multi-groove pulley system for efficient power transfer and includes essential internal components like the stator, rotor, rectifier, and voltage regulator for optimal performance.

Technical Specifications

Voltage	14 V
Amperage	110 A
OE Reference Numbers	Lester 32227, LR1110-502, 8-97363-832-0

Logistics & Ordering

Packaging Options

Neutral Packaging • Custom Packaging

Payment Terms

- TT
- LC
