

Automotive and Truck Replacement Parts

Selection of aftermarket auto parts for trucks and automobiles. Parts include steel wheels, tires, axles, batteries, fifth wheels, and tow pins.

Overview

Automotive and Truck Replacement Components

This comprehensive selection of heavy-duty aftermarket components is designed for reliability and performance in automotive and trucking applications. The range includes essential hardware such as steel wheels, radial truck tires, axles, and maintenance-free batteries. Built to meet industrial standards, these parts provide versatile solutions for fleet maintenance and heavy-duty logistics equipment.

Component Inventory

Part Reference Table

Article Number	Component Category
889.2301.101	Tubeless/Trailer/Heavy-Duty Steel Wheel
889.2302.101	Tubeless/Radial Truck Tyre
889.2303.101	Axles
889.2304.101	Lead Acid/MF Battery
889.2305.101	Fifth Wheel (50# 90#)
889.2306.101	Tow Pin
