Product Overview

High-Performance Brake Pad Set

This automotive brake pad set is engineered for reliable stopping power and enhanced durability under demanding driving conditions. The set includes four pads featuring precision-bonded friction material on a reinforced metal backing plate, ensuring stability and long-lasting performance. Designed for secure installation, the assembly includes essential clips and shims to minimize noise and improve overall braking efficiency.

Technical Specifications

Reference Part Number	06.9281-0784.2
