

Automotive Brake Pads

These high-performance brake pads deliver optimal stopping power and durability. They are engineered to provide consistent braking performance for a range of vehicle models and driving conditions.

Product Overview

High-Performance Braking Solution

These automotive brake pads are engineered for optimal stopping power and long-term durability. Designed to provide consistent braking performance under a variety of driving conditions, they offer a reliable solution for maintenance and repair needs. The robust construction ensures safety and effectiveness, making them a suitable choice for a wide range of vehicle models.

Technical Specifications

Model Code	PROFESSOR DS56 FF
Production Date	2013-04-10

Key Features

Installation	Easy Installation
Performance Features	High Performance, Consistent Braking, Durable Construction
