Overview

High-Efficiency Automotive Oil Filtration

This high-performance cartridge oil filter is engineered to provide superior filtration for automotive engines, ensuring the efficient removal of contaminants from engine oil. Designed to meet or exceed OEM specifications, it promotes optimal engine performance and longevity by maintaining oil cleanliness and protecting critical components. Its durable construction makes it a reliable choice for maintaining fuel and gasoil systems in a variety of vehicle models.

Technical Dimensions

Physical Dimensions

57.1 mm

Diameter

105.5 mm

Height

21 mm

Inner Diameter (Min)

23 mm

Inner Diameter (Max)

Compatibility

Compatible Vehicle Models

Chevrolet Aveo, Chevrolet Cruze, Fiat, Opel Astra, Opel Corsa, Opel Meriva, Opel Zafira

Reference Numbers

Cross-Reference Codes

Reference Type	Part Number
