Product Overview

High-Performance Clutch Disc

This high-performance clutch disc is engineered for optimal power transfer and long-term durability in heavy-duty automotive applications. Designed with robust friction material, it ensures enhanced grip and an extended service lifespan. The assembly incorporates a precision-engineered sprung hub to effectively dampen vibrations and reduce operational noise, ensuring reliable performance under demanding conditions.

Compatibility & Application

Vehicle Type

Car • Truck

Compatible Makes

Isuzu, Mitsubishi

Technical Features

Key Design Features

- Robust friction material for enhanced grip
- Sprung hub for vibration damping
- Precision-engineered spline for accurate fitment
- Noise reduction technology
