

# Automotive Clutch Disc

This clutch is designed for automotive applications. It features a robust construction with a central circular opening and multiple mounting holes around the perimeter.

## Product Overview

### High-Performance Automotive Clutch Disc

This automotive clutch disc is engineered for reliability and efficient power transmission in demanding driving conditions. Featuring a robust metal construction, it is designed to withstand significant mechanical stress while maintaining consistent performance. With its precise central opening and standardized mounting hole configuration, this component ensures seamless integration into various vehicle drivetrain systems.

## Technical Specifications

Material	Durable Metal
Design Features	Robust Construction, Central Circular Opening, Multi-Hole Mounting

## Performance
