

Automotive Clutch Kit

This clutch kit provides reliable engagement and disengagement of the engine and transmission. Its robust construction includes friction materials and springs for optimal performance and smooth operation.

Product Overview

High-Performance Clutch Kit

This automotive clutch kit is engineered for reliable engagement and disengagement between the engine and transmission. Featuring robust construction with high-quality friction materials, it ensures optimal performance and long-term durability. The inclusion of precision springs facilitates smooth operation and efficient power transfer, making it an essential component for maintaining proper gear changes and a consistent driving experience.

Technical Specifications

Facing Dimensions (O.D. x I.D.)	215 x 147 mm
Spline (Count x Diameter)	20 x 22.60 mm
OEM Reference Number	E8FZ-7550A

Compatibility

Supported Production Years	1971-1986, 1984-1994, 1985-1990, 1986-1989, 1986-1987, 1989
