

# Automotive Clutch Kit for Honda Vehicles

This clutch kit is engineered for Honda vehicles, ensuring optimal power transfer. It features a robust pressure plate and friction disc for smooth engagement and reliable performance.

## Product Overview

### High-Performance Clutch Kit

This automotive clutch kit is engineered for optimal power transfer and durability in specific vehicle applications. Designed with a robust pressure plate and friction disc, it ensures smooth engagement and reliable operation under demanding driving conditions. This assembly is a key component for transmission and distribution systems, built to meet high standards for performance.

## Technical Specifications

Factory Number	FC99111
APRA Number	47702
Daikin Number	HCC902

## Compatibility

Compatible Years	1990-1995
------------------	-----------

## Dimensions

Plate Dimensions (O.D. x I.D.)	211.5mm x 135mm
P.C.D.	6.1mm x 238.5mm

## Application

Application Areas	Transmission, Distribution, Automotive
-------------------	--
