

Automotive Diagnostic Scanner for VAG and CAN-OBD2 Vehicles

This diagnostic scanner is designed for VAG and CAN-OBD2 compliant vehicles. It reads and clears diagnostic trouble codes, views live data streams, performs component testing, and accesses vehicle information.

Product Overview

Professional Diagnostic Capability

The U585 Super Memo Scanner is a comprehensive diagnostic solution engineered for VAG group vehicles and universal CAN-OBD2 applications. It allows automotive technicians to read and clear diagnostic trouble codes, stream live sensor data, and perform complex tasks like Service Oil Resets and basic system adaptations. With its intuitive interface and backlit display, it provides an efficient alternative to traditional dealership-level diagnostic tools.

Technical Specifications

Display

128 px

Resolution Width

64 px

Resolution Height

Power Requirements

- Internal: 9v Cell
- External: 10.0 to 15.5V via vehicle battery

Physical Dimensions

Dimension	Value	Unit
Length	195	mm
Width	81	mm
Height	32	mm
Cable Length	1500	mm

Operating Temperature

50 °C
