Product Overview

Denoxtronic 2.2 Dosing Pump Unit

This genuine automotive dosing pump unit is designed for integration into Cummins SCR emission systems. Engineered for durability, it is constructed from a robust combination of metal, rubber, and plastic components to withstand demanding automotive environments. This critical component is essential for effective exhaust aftertreatment and emission control.

Technical Specifications

Part Number	4387657
Secondary ID	A052U282
System Compatibility	Cummins, SCR Emission System
