

Automotive Drain Line Cleaner

The drain line cleaner is designed to clear obstructions from hard-to-reach drain openings. Its flexible hose and grommet enable access to difficult areas.

Product Overview

Automotive Drain Line Cleaner

This specialized automotive drain line cleaner is engineered to effectively clear obstructions from difficult-to-access drain openings. Featuring a highly flexible hose and specialized grommet, the tool allows operators to navigate complex vehicle drainage systems with ease. The integrated trigger mechanism provides precise control, while the pressurized cartridge system delivers the necessary force to ensure thorough cleaning.

Technical Features

Included Attachments

- Various attachments for different drain types

Hose Design

Flexible hose with grommet for hard-to-reach access

Operation

Trigger mechanism for controlled operation

Cleaning Mechanism

Pressurized cartridge
