

Automotive Electric Fuel Pump

Electric fuel pump provides reliable fuel delivery for optimal engine performance. It features robust construction for durability and ensures consistent fuel pressure under varying conditions.

Product Overview

High-Performance Fuel Delivery

This automotive electric fuel pump is precision-manufactured and rigorously tested to ensure 100% reliability. It provides consistent fuel pressure and flow rates under varying operating conditions, supporting optimal engine performance. Built with robust materials for durability and a long service life, this unit is designed for easy installation and maintenance in automotive applications.

Technical Specifications

Performance Metrics

3.5 Bar Pressure	95 L/h Flow Rate
----------------------------	----------------------------

Part Number	EFP431202G
-------------	------------

Compatibility & Standards

Cross Reference

Brand	Part Number
AIRTEX	E3910
CARTER	P74179

Application	SATURN
Certifications	TUV, CE, ISO/TS 16949:2002
