

# Automotive Electric Fuel Pump

This electric fuel pump is designed for automotive applications, ensuring reliable fuel delivery to the engine. Its robust construction provides durability and consistent pressure, optimizing engine performance for various vehicle models.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Automotive Fuel Pump

This automotive electric fuel pump is engineered to ensure consistent and reliable fuel delivery to your engine, maintaining optimal pressure and flow for peak performance. Designed with robust construction for durability, it is compatible with various vehicle models and fuel types, including gasoline and ethanol blends. The unit features precise engineering for easy installation, making it an ideal choice for fuel injection systems requiring dependable operation.

## Performance Metrics

### Operating Pressure

**2.5 Bar**

Min Pressure

**3 Bar**

Max Pressure

### Flow Rate

**90 L/H**

Min Flow

**100 L/H**

Max Flow

## Quality & Warranty

### Warranty

1 Year Guarantee

## Compatibility

### Fuel Compatibility

Gasoline, Ethanol Blends
