

# Automotive Electric Fuel Pump

This electric fuel pump is designed for automotive applications. It provides consistent fuel delivery for optimal engine performance and is ideal for fuel injection systems.

## ADDITIONAL IMAGES

## Overview

### High-Performance Fuel Delivery

This automotive electric fuel pump is engineered for consistent and reliable fuel delivery, making it an ideal component for modern fuel injection systems. Designed with a robust metallic housing and durable connectors, it ensures long-term operational stability under demanding conditions. The unit provides a steady flow rate and pressure, supporting optimal engine performance for a wide range of vehicle applications.

## Performance Metrics

### Operating Pressure

**2.5 Bar**

Min Pressure

**3 Bar**

Max Pressure

### Fuel Flow Rate

**90 L/H**

Min Flow

**100 L/H**

Max Flow

## Quality Assurance

### Quality Standard

Reliable Quality

### Warranty

1 Year
