

Automotive Engine Oil Pump

This high-performance oil pump is designed for automobile engines, ensuring consistent oil pressure and flow. It features precision-engineered gears and a durable housing for reliable performance and extended engine life.

Product Overview

High-Performance Automotive Oil Pump

This high-performance oil pump is engineered to maintain consistent oil pressure and flow to critical engine components. Constructed from durable metal alloy with precision-engineered gears, it ensures optimal engine lubrication and reduced wear. Designed for reliability, this component helps extend engine life across a wide range of automotive applications.

Compatibility Details

Part Number Compatibility

Part Number	Compatible Models
100187	Peugeot & Citroen 206 1.6 16V, 207, 307, 308 1.6 16V, C3, C4
100169	Peugeot 206 1.6 8V
1001C9	Peugeot & Citroen 205, 206, 207, C3
100156	Peugeot 405, 206
100177	Peugeot 306 1.8 8V, 405 1.6 8V (39 Teeth Drive Gear)
100178	Peugeot 306 1.8 8V, 405 1.6 8V (29 Teeth Drive Gear)
1001C7/1001G0	Peugeot & Citroen 206, 307, 308, 406, 407, 607, 807, C4, C5
1001C6/1001F2	Peugeot 206, 207, 307, 308, 407

Technical Specifications

Material	Durable metal alloy
Key Features	Precision-engineered gears, Consistent oil pressure, Efficient circulation, Includes mounting hardware
