Product Overview

Professional Fluid Transfer Solution

This comprehensive funnel set is engineered for efficient automotive fluid transfer, making it an essential tool for oil changes, coolant refills, and general maintenance. Constructed from durable, chemical-resistant polypropylene and silicone, these funnels are designed to withstand exposure to oil, coolant, gasoline, and transmission fluid. The set includes a variety of sizes and specialized designs, such as flexible extensions and nesting options, ensuring compatibility with diverse vehicle types and hard-to-reach areas.

Material and Design

Available Colors

Black • Blue • Red

Material

Polypropylene (PP) and Silicone

Key Features

Set Components

- Large capacity funnel for oil changes
- Flexible extension funnel
- Nesting funnels for compact storage
- Spill tray

Fluid Compatibility

Oil, Coolant, Gasoline, Transmission Fluid
