Product Overview

Enhanced Visibility Solution

These automotive fog lamps are precision-engineered to enhance visibility during night driving and adverse weather conditions such as heavy rain, snow, or dense fog. Featuring a polycarbonate lens with superior UV protection and high impact resistance, these lamps offer a highly controlled concentration of light. They serve as a direct replacement for factory units, ensuring a seamless fit and easy installation for 2006-2008 Mitsubishi Triton, Montero, and L200 vehicles.
