

Automotive Fog Light Kit with Bezels

This fog light kit includes two fog lights and two corresponding bezels. The bezels are designed to surround the fog lights and provide a finished look, featuring a horizontal slatted design.

Product Overview

High-Performance Fog Light Integration

This automotive fog light kit provides a comprehensive solution for improved visibility in adverse weather conditions. The set includes two precision-engineered circular fog lights paired with matching, aesthetically pleasing bezels. Designed for seamless integration, the bezels feature a professional horizontal slatted design that complements modern vehicle styling.
