Product Overview

Comprehensive Lighting Assembly

This automotive lighting assembly is specifically engineered for the 2008 Corolla, providing a complete solution for both front and rear illumination. Designed to meet or exceed OEM specifications, this unit ensures precise fitment, easy installation, and reliable performance. Constructed from durable, automotive-grade materials, the assembly is built to withstand environmental factors while maintaining safety standards and original vehicle aesthetics.

Technical Details

Factory Code	wt-15-101
Compatibility	2008 Toyota Corolla
Components Included	Headlamp, Tail Lamp

Construction & Design

Material Composition

- Automotive-grade plastic
- Durable acrylic lens

Tail Lamp Configuration

- Multi-compartment design
- Dedicated brake light section
- Dedicated turn signal section
- Reverse light section

Lens Color Coding

Function	Color
Brake / Tail Light	Red
Turn Signal	Amber
Reverse Light	Clear
