

Automotive Headlight Assembly

This headlight assembly is designed for automotive use. It features a black housing with a clear lens, circular headlights, illuminated rings, and an amber turn signal indicator to provide optimal illumination and visibility for safe driving.

Product Overview

High-Performance Automotive Headlight Assembly

This automotive headlight assembly is engineered to provide superior illumination and visibility for enhanced driving safety. Featuring a robust black housing paired with a crystal-clear lens, the unit is designed for durability and optimal light output. The assembly includes dual circular headlights with integrated illuminated rings and a distinct amber turn signal indicator, ensuring both style and functionality.

Design & Construction

Housing Color	Black
Lens Material	Clear
Mounting	Yes

Lighting Features

Key Lighting Components

- Dual circular headlights
- Illuminated rings
- Amber turn signal indicator

Compliance & Standards

Safety Features	Optimal Illumination, Enhanced Visibility
