Product Overview

High-Efficiency Automotive Heater Core

This automotive heater core is engineered for optimal heat transfer, ensuring reliable cabin heating in cold weather conditions. Constructed with durable aluminum fins and tubes, the unit is designed to withstand harsh automotive environments while maximizing heat retention. It features integrated inlet and outlet pipes for seamless coolant circulation and efficient performance within your vehicle's climate control system.

Technical Specifications

Core Dimensions	195 x 145 x 42 mm
TS Number	6278016

Compatibility & Cross-Reference

OEM Reference Numbers

- 9712333001
- 9712333000

Cross Reference Numbers

- Nissens 94468
- 77601

Compatible Models	Hyundai Sonata 1989-1998
