Product Overview

High-Performance Automotive Heater Core

This automotive heater core is engineered for efficient heat transfer and reliable climate control within vehicle heating systems. Featuring durable aluminum fins and tubes, it provides maximum heat dissipation and superior corrosion resistance for long-lasting performance. Designed for a precise fit, this unit ensures easy installation and restores optimal heating function to your vehicle.

Technical Specifications

Core Dimensions

396 mm
Length

187 mm
Width

32 mm
Depth

Construction Materials

- Aluminum fins
- Aluminum tubes

Compatibility

Compatible Vehicle Models

Mercedes 0345 otobus

Identification

Nissens Reference Number

6281024
