

Automotive HID Xenon Headlight Bulb

This is a high-intensity discharge (HID) Xenon headlight bulb designed for automotive applications. The bulb's design ensures optimal light output and long-lasting performance.

Product Overview

High-Performance Automotive Lighting

This high-intensity discharge (HID) Xenon headlight bulb is engineered for superior automotive visibility. Utilizing a specialized glass tube filled with Xenon gas and metal halide salts, it generates a bright, white light via an electric arc, significantly enhancing safety during nighttime driving. Designed for reliability and longevity, this bulb features a robust base and standard connector pins for straightforward installation.

Technical Specifications

Installation Features

- Standard connector pins
- Integrated blue electrical wire
- Easy-fit base design

Light Source	HID Xenon (High-Intensity Discharge)
Construction Materials	Clear Glass, Xenon Gas, Metal Halide Salts, Plastic Base
