

Automotive Horn with Chrome Finish

This compact horn is designed for automotive applications, providing a clear audible alert. It features a chrome finish and electrical connectivity for easy installation.

Product Overview

High-Performance Automotive Horn

This automotive horn is designed for reliable performance and durability, featuring a sleek, high-quality chrome finish that withstands environmental exposure. Its compact, round design incorporates a perforated face and a specialized three-sectioned baffle to produce a clear, audible alert signal. Engineered for easy integration, it includes standard electrical connectivity, making it an ideal choice for various automotive applications requiring a dependable warning system.
