Product Overview

High-Performance Ignition Distributors

These automotive ignition distributors are precision-engineered components essential for the reliable operation of internal combustion engines. Designed to deliver high-voltage sparks to spark plugs in the correct firing order, they ensure efficient combustion and optimal engine performance. With durable construction featuring high-quality metal and plastic, these units are suitable for a wide range of Japanese, American, and European vehicle applications.

Compatibility & Quality

Quality Standards

Original Quality • 100% Tested

Vehicle Compatibility

Japanese Vehicles, American Vehicles, European Vehicles

Technical Details

Materials

- Durable Metal
- High-grade Plastic

Core Features

- Electrical Connectors
- Vacuum Advance Mechanism
- Precise Timing Mechanism
