

Automotive IMMO Login Code Reader (K+CAN)

This diagnostic tool is designed for retrieving IMMO login codes from vehicle ECUs. It supports key programming and immobilizer system diagnostics through K-line and CAN bus communication.

Product Overview

Professional Diagnostic Solution

The Automotive IMMO Login Code Reader (K+CAN) is a specialized diagnostic tool designed for automotive professionals to manage immobilizer systems and dashboard diagnostics. It supports both K-line and CAN bus communication protocols, allowing for efficient retrieval of security codes and fault code management. This versatile device is essential for key programming and maintenance tasks across a wide range of vehicle models from 1998 to 2007.

Capabilities

Key Functions

IMMO Login Code Retrieval, Odometer Correction, Fault Code Removal, Dashboard Diagnostics

Compatibility
