Product Overview

Restoration of Instrument Cluster Functionality

This high-quality replacement transformer is specifically engineered for the Mercedes Benz S Class W220 instrument cluster. It effectively addresses common dashboard issues such as flickering, partial lighting, or total backlight failure, ensuring clear visibility for driver information. Designed as a direct replacement, this component restores the operational integrity of the vehicle's electronic display systems.

Compatibility Details

Type A Configuration

- Vehicle: Mercedes S Class W220 (1998-2000)
- BOSCH Part: 8 903 428 016
- Dashboard EEPROM: 93C66

Type B Configuration

- Vehicle: Mercedes S Class W220 (2000-2005)
- BOSCH Part: 9 948 411 098
- BOSCH Part: 9 948 411 025
- BOSCH Part: 9 948 411 09 027
- Dashboard EEPROM: 24c04
