Overview

High-Performance Automotive Intercooler

This high-performance intercooler is designed to enhance engine efficiency by effectively cooling the intake air charge. Constructed with high-grade aluminum, it ensures superior corrosion resistance and longevity while providing optimal heat transfer. Engineered for direct fitment, this unit helps increase engine performance and power output, making it an ideal upgrade for turbocharged or supercharged applications.

Technical Specifications

Core Dimensions	658*157 mm
Water Tank Dimensions	55/55*161 mm

Compatibility

Application List

Vehicle Model	Year	Engine
FORD ESCAPE (üsE)	2013-2016	1.6L L4
FORD TRANSIT CONNECT (hžL)	2014-2015	1.6L L4

OEM Reference Numbers	BV6Z-6K775-B, 1721228
Cross Reference	4401-1529, 96492
